

Anser™ U2 Mobile

The world's smallest hand-held inkjet printer, with colossal features

Low Cost

Turnkey Solution

Maintenance Free

All in one design:

- Print Head
- Ink Cartridge
- Print Screen
- Controller

Prints on:

- Cardboard
- Plastics
- PVC
- Steel
- And much more!

Functional, Practical, and Beneficial

Delivers superior printing performance at an amazing low price. Double efficiency by using on both primary and secondary packaging. Prints at any angle.

Subjected to 8 Reliability Test Categories for over 960 hours of environmental, temperature, humidity, and electrical variations testing.

Prints up to four lines of text, custom logos, and barcodes. Replacing traditional box coders, rollers, and inkjet printers. This is the tool to develop, enhance, and grow business.
