

Fully Automatic Case Sealer with Tape Closure
Up to 45 cases per minute

Case Sealer
BEL 290

RSC Case
The BEL 290 seals RSC cases.

Fully Automatic Case Sealer

An outstanding combination of versatility, reliability, compact design and high speed capability sets the BEL 290 fully automatic case sealer apart from all competitors. Designed to satisfy the demands of around-the-clock industrial applications, the BEL 290 fits easily in any packaging line application. It produces gap-free, tightly butted top flap sealing at speeds up to 45 cases per minute. The BEL 290 accommodates a wide range of case sizes and the heavy-duty drive system ensures cases retain their shape and alignment in every application.

Energy Management

The control panel features a user friendly touch screen to control and monitor all systems that respond to changes in case flow affecting energy efficiency.

Squareness Assured

The heavy-duty side belt drive system ensures that cases retain their shape and alignment regardless of their contents or capacity.

Operator Safety

The BEL 290 aids in employee safety with standard interlocked guarding.

BEL 290 Fully Automatic Case Sealer

BEL 290 Features

- The Case Flow Logic feature reacts to changes in case production and manages energy consumption by stopping the machine when it is not in use and restarts when case flow resumes.
- Advanced, fully-interlocked safety guarding is equipped with Safe Logic, which protects the operator when accessing the machine.
- Tool-less, color-coded case size changeover in under 5 minutes.
- Easy to maintain, uses the highest quality commercially available components.
- Extruded aluminum frame construction stands up to the most demanding working environments.
- Meets NEC, UL, ULC, NFPA and OSHA standards.
- Optional tape management system, with touch-screen control, reliably monitors all tape related functions.
- Optional Stop Gate, with touch-screen control, indexes cases and manages operational speed.
- Complete wash-down options and extended guarding packages are also available.

Complete Solution

Wexar WF20 and WF30 Case Former
The WF20 and WF30 fully automatic case formers continuously and effortlessly open and form cases, presenting them ready for packing.

ABH Fully Automatic Bliss Former
The ABH universally forms many types of Bliss boxes, balancing maximum vertical stacking strength with economical use of corrugated.

Maximum	22" 559 mm*	18" 457 mm	19" 482 mm
Machine Speed: Up to 45 cases per minute depending on box size and high speed option.			

* Specifications are subject to change without notice.

How the BEL 290 Works

RSC Case
The BEL 290 seals RSC cases.

1 Easy Set Up

A color-coded tactile guide and easy tools-free adjustments, provide for convenient setup and quick changeover in minutes.

2 Flap Folding & Side Compression

The cases with product are transferred by the side belt system, which ensures gap-free, tightly-butted top flap alignment.

3 Top Sealing

Superior case sealing performance is achieved with its quality tape application. The BEL 290 comes standard with DEKKA tape heads.
